

■DESCRIPTION

The purpose of this conference is to provide an educational opportunity for nurses to increase their knowledge and ability to plan nursing interventions using sample patient information and fetal monitor tracings.

The conference format will be the presentation of four generic cases using fetal monitoring tracings as a component of the case presentation.

Comments from the January conference:

“I think this is an awesome way for nurses to get to sit back, review tracings and interact with one another.” “Excellent session! Very informative.” “Important – issue I see in my practice daily.” “Excellent topics!”

■LOCATION

For directions to the hospital go to www.perinatalconsortium.org and select the link to Mercy St. Vincent Medical Center or call the hospital operator at 419-251-3232. The closest parking to the classroom is Lot #2 on Cherry Street across the street from the Life Flight Helicopter landing pad. Enter the Surgery Center entrance near Emergency and follow the signs down the hallway to the classroom.

■QUESTIONS:

Regional Perinatal Education

Debbie Fritz, RNC, MSN, coordinator
