

**The Region III+ Perinatal Education Consortium
Breastfeeding Services Directory
(36 pages)**

February 2011

The Region III+ Perinatal Education Consortium is a collaborative effort of perinatal professionals at member hospitals located in 21 counties of northwest Ohio and southeast Michigan. The goal is to enhance the quality and quantity of education available to perinatal staff. The breastfeeding committee of the Consortium has a mission to support, protect, and enhance the breastfeeding experience for mothers and their infants. Activities include regular network meetings for professionals working with pregnant and breastfeeding women, meetings and conferences for learning and to obtain the CERP credits required by certified lactation consultants, and creating this breastfeeding resource for our region.

Breastfeeding Committee
